

# Do You Want More of YOUR Money, A GOOD Education for Your Children, and For the Government to Leave you ALONE?

**You are invited to join us in the most exciting and positive change for America in this century!**

*The Mission of this group is to give a voice to citizens that care about personal and fiscal responsibility. We know that responsible people need the freedom to succeed and fail and then succeed again. To achieve this, the government must be restrained for a healthy and prosperous society, and **YOU** are the person to do it!*

**Join us and restore Common Sense in your Country and Community!**
