

As Plato so correctly observed 2,400 years ago, a tyrant will first appear to you claiming to be your protector. Politicians have made an art form of magnifying some “dangers” and manufacturing others to convince us to allow them more power so they can “protect us” or “take care of us.”

**It is time to stop wasting our votes on Demopublican politicians who will continue to do all these same destructive things. We**

**must replace them with honest citizens who will take their oath to “protect and defend the Constitution” seriously. Now is the time to join the Libertarian Party.**

# Government gone Wild!

- Bailouts that reward incompetence
- Widespread corruption, lying and criminal acts by government officials
- Warrantless spying on citizens
- Wealth confiscated from those who earned it is given to those who did not earn it, and to political cronies
- Runaway growth in the size and power of government is crushing personal and economic freedoms
- Bureaucrats to ration our health care
- Alarming debt and spending growth
- Lack of accountability for trillions

Sound like some third-world country?

Incredibly and sadly, it is the United States of America. The limits of our Constitution are being ignored. The fundamental principles that made our country great have been abandoned. We are in big trouble and things have reached the point where they are going downhill faster and faster.

**Who is to blame for ruining our country?**

Is it the **Democrats?** Is it the **Republicans?**
